Feminine Fragrances

Rose - This rose oil has a frequency that reminds us of Oneness, heals birth and birthing trauma, and restores the intuitive nature of the womb. It is a blend of Bulgarian and Egyptian absolute rose essence.

Flower of Saffron - Brings depth of intuition and spirituality, and delivers deep peace and contentment. This oil is stimulating to the functions of the organs.

Narcissus - Can be called the fragrance of the moon, emphasizing the feminine mystery. It awakens the intuitive nature of the feminine reproductive system and communication with the hidden realms.

Magnolia - Magnolia heals issues of mothering, either the inclination to mother others, or neediness caused by insufficient parenting during childhood. Magnolia brings deep contentment and feelings of wholeness.

Lotus - This fragrance creates a very profound awakening in the hidden centers of the body, specifically the pineal and the high-heart. It creates a field of golden light around the body.

Secret of Nefertiti - Enhances the poetic perspective and romance of life. It refines sensual experience and stimulates sexuality, as does Lotus.

Queen of the Nile - This oil promotes the fluidity of mastery, releasing the bondage of belief systems. It encourages spontaneous authenticity and confidence of expression. It may be beneficial for releasing strictures in joints and ligaments.

Lily - Lily creates refinement of enjoyment and depth of sensual experience.

Jasmine - Jasmine brings intensity to sensual experience. It heightens awareness of the pleasures of life and restores emotional well-being.

The Secret of the Desert - Grounding for women who are inclined to live outside their bodies, or who suppress their feminine in favor of masculine expression. It creates a feeling of safe feminine expression.

Gardenia - Gardenia brings the confidence in the strength of the feminine. It promotes grace and self-sovereignty.

Henna Flower - Beloved by women and enjoyed by men, this powerful and sacred oil brings back memories of the pristine state in which we dwelled before the fall into duality. Envelop yourself in the bliss of this exquisite fragrant oil and the heightened states of consciousness it evokes.

Blue Lagoon - This delightful blend of vanilla flowers, corn flowers and other blossoms, brings the lightening of the moods by helping to stimulate the release of serotonin in the brain. It instills optimism, hope and lightness of being, while releasing tension caused by old cellular memory. This romantic fragrance inspires the song of the heart.

Goddess Blend - Like a golden thread through the tapestry of time, legends have told of the ultimate feminine. Inspired by these ancient tales of a Goddess among men, this evocative fragrance was created to stir hearts and delight the senses.

Fuchsia - This exotic fragrant oil stimulates optimism, self-worth and balances the mood with even-temperredness. Its light-hearted note creates the inner peace of the eye of the storm.

Neroli - The poetry of this poignant fragrance lingers like a promise in the air, releasing grief and intolerance. It delivers deep comfort and optimism.

Masculine Fragrances

Patchouli - Patchouli is very grounding for the male tendency of over-emphasis of the electrical (mind, reason and intellect). It helps silence the dialogue of the mind so that spiritual mastery can be accomplished. Promotes deep meditation and expansiveness.

Tutankhamun - Dissolves stagnation of emotion and repression of the authenticity of the male expression.

Bedouin of the Night - Awakens the feminine qualities of the male, stimulating proper flow of energy in the lower chakras. It restores the intuitive abilities of the masculine.

Arabian Nights - This fragrance is deeply sensual and awakens the self-knowing of male potency. It has aphrodisiac qualities.

Desert Moon - This fragrance stimulates the functioning of the hidden centers that are found only in the dream body of humans. The masculine womb, a center found above the root chakra within the dream body, becomes awakened to create a feeling of self-fertilization of his dreams. It creates a feeling of being at home and confidence in self-achievement.

Papyrus - Restores the love of adventure within life and awakens the full functioning of sexuality.

Hathor - Promotes inner masculine strength and self-confidence. Creates belief in the ability to achieve.

Sandalwood - Sandalwood's clean, fresh scent is uplifting to the spirit and elevates the mood. It assists in releasing the hold of the past and instills hope. It could be beneficial in creating optimism and self-confidence.

Luxor - This fragrance of deep sensuality heightens sensory experience by increasing sensitivity of awareness. Its rich blend of fragrant notes complement the expression of masculine virility and appeal. This oil awakens the rising of kundalini.

Blend of the Gods - The primary ingredient in this unsurpassed blend, is Oud oil of the highest quality obtained from Agar trees, found only in a few places on earth. Its rarity and excellence has earned it the name of 'The Oil of Kings', and in the Middle East it is called 'The Oil of the Sultans'. Its refined properties stimulate the production and release of hormones that promote longevity, personal power and magnetism, and the evolved expression of masculine balance.
